******The U.S. Army Corps of Engineers has requested a final determination on this item and thus is being brought back to the City Council.***

Background:

On December 16, 2020 the City Council considered this same item. No decision was taken at that meeting. Now, the U.S. Army Corps of Engineers has requested a final determination on this item and thus is being brought back to the City Council.

The United States represents that it possesses a perpetual easement over the Properties and that the Properties are not buildable due to the easement.

The United States has opened an escrow account and deposited the sale amount of \$26,700; however, the funds cannot be released from escrow to the City unless and until the United States receives from the City a resolution approving the Purchase and Sale Agreement.

The City is subject to the California Surplus Land Act (Government Code §54220 *et seq.*) (the "Act"), which requires local agencies (including cities) to determine, by governing body findings, whether land it intends to dispose of is (a) "surplus" and, if so, should first be made available to affordable housing developers; or, if surplus, (b) "exempt surplus" and not subject to the procedural requirements under the Act.

Surplus Land Act Analysis:

Section 54221(b)(1) of the Act defines "surplus land" as "land owned in fee simple by any local agency for which the local agency's governing body takes formal action in a regular public meeting declaring that the land is surplus and is not necessary for the agency's use." Under the Act, land must be declared "either 'surplus land' or 'exempt surplus land,' as supported by written findings, before a local agency may take any action to dispose of it consistent with an agency's policies or procedures."

Section 54221(c)(1) defines "agency's use" to include, but not be limited to, "land that is being used, is planned to be used pursuant to a written plan adopted by the local agency's governing board for, or is disposed to support ... agency work or operations, including, but not limited to, utility sites, watershed property, land being used for conservation purposes, land for demonstration, exhibition, or educational purposes related to greenhouse gas emissions, and buffer sites near sensitive governmental uses, including, but not limited to, waste water treatment plants." Notably, "agency's use" does *not* include "commercial or industrial uses or activities, including nongovernmental retail, entertainment, or office development"; nor does it include "property disposed of for the sole purpose of investment or generation of revenue." Govt. C. § 54221(c)(2)(A).

Here, the Properties are undeveloped and not necessary for the City's use. They are, therefore, surplus land. Certain types of surplus land, however, depending on, *e.g.*, the recipient of the transfer, are exempt from application of the Act and its procedural requirements prioritizing the development of affordable housing. For example, surplus land that "a local agency is transferring to ... [a] federal agency for the agency's use" renders the land "exempt surplus land." Govt. C. § 54221(f)(1)(D). Here, if the City sells the Properties to the United States, the Properties are exempt surplus land, and the Act therefore does not apply. *See* Govt. C. § 54222.3 ("This article shall not apply to the disposal of exempt surplus land as defined in Section 54221 by an agency of the state or any local agency.")

CEQA Analysis:

The actions described herein are exempt from review under the California Environmental Quality Act (Pub. Res. Code § 21000 *et seq.*) ("CEQA"), pursuant to CEQA Guidelines section 15312 (Surplus Government Property Sales).

Fiscal Impact:

Upon approval of the Resolution attached hereto, \$26,700.00 will accrue to the benefit of

the City's general fund.
