SUBJECT: Continuance of a Public Hearing – Second Reading and Adoption of Zoning Text Amendment - Ordinance No. 1181- Pertaining to Accessory Dwelling unit Regulations & Ordinance No. 1182 amending Section 17.01.900 Definitions, & Chapter 17.03 Residential Zones.

=====

Recommendation:

Staff requests that the Continuance of a public hearing is held and:

1. Adopt Ordinance No. 1181 – Pertaining to Accessory Dwelling Unit Regulations; and
1. Find the requested project exempt from the California Environmental Quality Act (CEQA); and
2. Adopt Ordinance No. 1182 - Amending Section 17.01.900 Definitions & Chapter 17.03 Residential Zones.

Background:

Section 65852.2 of the California Government Code regulates Accessory Dwelling Units (ADUs).

On September 27, 2016, Governor Jerry Brown signed Senate Bill 1069 and Assembly Bill 2299, which amended Section 65852.2 to streamline processing and encourage development of ADUs. Among other changes, the amendment replaced the term “secondary unit” with “accessory dwelling unit,” limited cities’ ability to require parking for ADUs, and required cities approve with only a building permit certain ADUs built entirely within an existing home or accessory structure. SB 1069 and AB 2299 became effective January 1, 2017.

On October 8, 2017, Governor Brown signed SB 229 and AB 494, which again amended Section 65852.2 to, among other changes, further limit cities’ ability to require parking for ADUs and to require setbacks for garage-conversion ADUs, The State Legislature’s purpose for enacting Section 65852.2 and its subsequent amendments is to provide additional rental housing to help solve California’s housing deficit.

Discussion & Analysis:

This comprehensive update includes code clean up, streamlined procedures, and adherence to the recently amended State law.

Code Clean Up

The Calexico Zoning Code has various terminology and definitions for second units. The Code makes reference to “guest dwellings,” “accessory living quarters,” “second single family dwellings,” “second kitchen dwelling unit,” and “second kitchen granny flats.” The proposed code amendments will delete all the various terminologies and use the new terminology of “accessory dwelling units” (ADU) for all of these uses. State law also defines “accessory dwelling unit” to expressly include manufactured homes. (Cal. Government Code, Section 65852.2(i) (4) (B).) Accordingly, the Calexico Code reference to “mobile homes on individual lots, and permanent foundations which are certified under the National Mobile home Const. and Safety Standards Act of 1974 and which were constructed after Oct. 1976” has been combined into the ADU regulations as well.

Streamline Procedures

The proposed zoning text amendments will streamline the procedures for building an ADU, so a discretionary permit and a hearing will not be required. For an ADU that is converted from an existing, legal structure the project will require a building permit only if the project meets certain state law requirements. (See Proposed Section 17.03.120(D); ref. Gov. Code § 65852.2(e).) All other ADU projects (primarily, new structures and additions to existing structures) would require a ministerial use permit to be approved by the Director of Development Services and would have to meet the development standards set forth in the newly proposed Section 17.03.165. (See Proposed Section 17.03.120(C); ref. Gov. Code § 65852.2(a).)

Amended State Law

Given the recent amendments to state law, Government Code, Section 65852.2, the Zoning Code must be amended to meet the adopted legislation as it relates to ADUs. The proposed changes include, but are not limited to:

1. Increasing maximum size of units to 1,200 square feet for detached ADUs, or 50% of the existing living area or 1,200 square feet for attached units.
2. Allowing uncovered replacement parking for a garage-conversion ADU.
3. Exceptions to the required parking.
4. Exceptions to setbacks for garage conversions to accessory dwelling units.

Textual changes to the existing Chapter 17.03 of the Calexico Municipal Code as briefly outlined above are fully identified in Exhibit “A – Draft Accessory Dwelling Unit Ordinance. The proposed changes are considered required in order to comply with the mandates from the State.

If the City’s Zoning Code provisions regarding ADUs do not conform to Section 65852.2, then Section 65852.2(a)(4) renders those provisions null and void and the City may only enforce the minimal standards provided in Section 65852.2(a)(1)(D).

NOTICING:

A legal notice of the public hearing on the proposed Municipal Code Amendment was published in the Calexico Chronicle on January 25, 2018 following with a second notice of the public hearing being published on February 22, 2018. These notices were posted in three public places and posted on the City's website at 608 Heber Ave. As of the date of this Staff Report, no public correspondence has been received. A Public Hearing was also presented at the Planning Commission meeting on January 22, 2018 all comments were positive and for amending the code for ADU. First Reading of the ordinance was presented to the City Council on February 7, 2018.

ENVIRONMENTAL REVIEW:

Staff has reviewed the project for conformance with the California Environmental Quality Act (CEQA) and determined that the activity is statutorily exempt from the requirements of CEQA pursuant to Section 21080.17 of the Public Resources Code because it is an ordinance regarding second units in a single-family or multifamily residential zone to implement the provisions of Government Code Section 65852.1 and 65852.2.

ZONING CODE AMENDMENT FINDING OF FACTS:

Staff reviewed the proposed zoning text amendment and determined it to be consistent with the Calexico General Plan. The amendment conforms to the vision of the General Plan. This amendment will allow for the City to continue its regulation of ADUs in conformance with State law.

Specifically, the proposed Zoning Code amendment furthers the following Land Use goals of the General Plan:

Vision 2.1.1(a): Open up additional opportunities for our families to have a choice in living environments and satisfies a diversity of housing needs.

ADUs can be an important component of neighborhood development or redevelopment by contributing to a neighborhood's affordable housing options and contributing to a neighborhood's economic sustainability by affording homeowners the opportunity lease space on their lots.

Objective 6: To continue to promote the development of quality housing for all segments of the population.

The proposed amendments will continue to enable the development of ADUs, which offer a more affordable options, opportunities for senior citizens to remain in their hometown or continue living with family, space for caretakers, among other beneficial uses. The proposed amendments will ensure that the City regulates the size, occupancy, and architecture of accessory dwelling units, in a manner

consistent with state law that promotes compatibility with adjacent residential structures.

Objective 7: To ensure that residents are provided a safe and healthful environment in which to live and work

The proposed amendments allow the City to, consistent with state law, regulate accessory dwelling units in a manner more tailored to the needs of the City's neighborhoods and residents. If the City's Development Code provisions regarding ADUs do not conform to Government Code Section 65852.2, then Section 65852.2(a)(4) renders those provisions null and void and the City may only enforce only the minimum standards provided in Section 65852.2.

The proposed zoning text amendment conforms with the intent of Zoning Code, specifically with the intent of Calexico Municipal Code, Chapter 17.03, that the residential zones reserve appropriately located areas for family living at a broad range of dwelling unit densities consistent with the general plan and with sound standards of public health, safety and welfare; ensure adequate light, air, privacy, and open space for each dwelling; minimize traffic congestion and to avoid the overloading of public services and utilities by preventing the construction of buildings of excessive bulk or number in relation to the land area around them; and protect residential properties from noise, illumination, unsightliness, odors, smoke and other objectionable influences. The Zoning Code amendment includes various development standards, including setbacks, architectural compatibility, rear yard setback, and required parking to the extent allowed by state law.

Therefore, the proposed zoning code amendments are consistent with the goals, policies, and objectives of the General Plan and the Zoning Code.

CONCLUSION:

Based on the information in this staff report, Staff recommends that the City Council hold a public hearing and adopt the attached Ordinance No. 1181 and Ordinance No. 1182:
