DEMOLITION PERMIT APPLICATION REQUIREMENTS
BUILDING DIVISION

Project Address: _____

When requesting a demolition permit the following information is required:

- Demolition permit application. (Completed and signed)
- Demolition, re-use and recycle plan. Report to be certified by recycle company for final approval.
- Request all utility meters to be removed. (Staff will call all utility companies to confirm removal)
- Asbestos report. (For structures)
- Allied Waste must be contracted for all trash pick-ups.
- Site plan showing existing structure and scope of work.

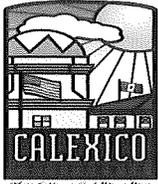

Type of Demolition (\$46.00 per 3000 ft²):

- Entire structure Section of a structure Swimming pool
- Other: _____

CITY OF CALEXICO
DEVELOPMENT SERVICES DEPARTMENT
Construction/ Demolition Reuse and Recycling Plan Form
BUILDING DIVISION

The City of Calexico is requesting that all applicants prepare a waste management and recycling plan by completing the following form for construction and demolition materials produced as a result of work performed in the City of Calexico. The City requires that contractors recycle materials when there is a viable recycling company available. The Imperial Valley Waste Management Task Force staff will provide assistance to applicants in developing and implementing the waste management and recycling plan by calling (760) 337-4537

COMPANY NAME: _____ CONTACT: _____

ADDRESS: _____ PHONE: _____

JOB SITE: _____ FAX: _____

Please fill out the following form for submittal. The form will help to identify the types of materials, estimated quantities of material and how the material will be transported and recycled or disposed. If you have any questions regarding the form or recycling and disposal, please call (760) 337-4537.

Circle the material that will be generated at the construction site, estimate the quantity, list how the materials will be transported and write in where the materials will be taken.

**DEMOLITION OR RENOVATION ASBESTOS REQUIREMENTS
FACT SHEET**

The U.S. Environmental Protection Agency (U.S. EPA) and the California Air Resources Board (CARB) require compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAP) regulations. This fact sheet is provided to aid compliance with the National Emission Standard for Asbestos (Asbestos NESHAP, 40 CFR, Part 61, Subpart M) for demolition and renovation activities, particularly with the inspection and notification requirements.

Residential Building Exemption from the Asbestos NESHAP Requirements

A permit must be obtained from your local building department for demolition or renovation. The demolition or renovation permit for a residential building which has four or fewer dwelling units and/or out-buildings usually may be issued without the applicant conducting an asbestos inspection or notification, if the applicant declares the project is exempt. For demolitions, the permitting agency must require the applicant to make the declaration in writing, or it may incorporate the applicant's response on the demolition permit application (Health & Safety Code Section 19827.5). Homeowners remain subject to asbestos disposal requirements.

Regulated Facilities Subject to the Asbestos NESHAP Requirements

The demolition or renovation of an Asbestos NESHAP Regulated Facility will require an asbestos inspection and notification to U.S. EPA and CARB for a permit to be issued by your local building department. Demolition projects require notification even if there is no asbestos present. See definition of Regulated Facilities.

- For demolitions or renovations of Asbestos NESHAP Regulated Facilities, the following requirements apply:
 - A thorough asbestos inspection of the facility and testing of materials to determine the presence of asbestos must be conducted by a Cal/OSHA certified asbestos consultant (Cal/OSHA regulations, California Labor Code, 9021.5 through 9021.8).
 - Demolition projects require a NESHAP Notification even if there is no asbestos present.
 - Renovation projects require NESHAP Notification if they involve the disturbance of friable or Regulated Asbestos Containing Material (RACM) meeting or exceeding the minimum of:
 - 260 linear feet on pipes, or
 - 160 square feet on other facility components, or
 - 35 cubic feet, if square feet or lineal feet could not be determined
 - Identified regulated asbestos-containing materials (RACM) **MUST BE REMOVED** if RACM is above the threshold amounts specified above, prior to disturbance, by a Cal/OSHA registered asbestos contractor.
 - 40 CFR 61.19 forbids owners and operators from attempting to circumvent any NESHAP by carrying out an operation in a piecemeal fashion to avoid coverage by a standard that applies only to larger than a specified size.
 - The Notifications are to be submitted 10 working days in advance of any work. The

**DEMOLITION OR RENOVATION ASBESTOS REQUIREMENTS
FACT SHEET**

original notification form should be sent to: U.S. EPA, Region IX, Enforcement Division (2-1), Attn: Asbestos NESHAP Program, 75 Hawthorne Street, San Francisco, CA 94105. For Placer County demolitions and/or renovations, a copy of the notification must be sent to: California Air Resources Board, Attn: Enforcement Division, Asbestos NESHAP Program, P.O. Box 2815, Sacramento, CA 95812; or faxed to (916) 229-0645. If you have further questions regarding the Asbestos NESHAP Program or notification details, please contact Ahmad Najjar at (916) 229-0349, or via email to aj.najjar@arb.ca.gov.

- Attach to your demolition permit application a copy of the completed notification form(s) that were sent to U.S. EPA and CARB.

Additional Requirements:

- In the event that a project is determined to be exempt from the Asbestos NESHAP, the owner, contractor and subcontractors are not relieved from compliance with other city, county, state and federal laws, statutes and codes, or from obtaining permits for other activities.
- Enforcement action may be taken if the project is found to be subject to the Asbestos NESHAP and not in compliance. The enforcement action may include monetary penalties.
- In the event the activity should become subject to the Asbestos NESHAP during the course of the project, the owner or operator shall stop work and follow 40 CFR 61, 61.145(b) procedures.
- There is no exemption given based on when a building was constructed.

Definitions: (Note: definitions may differ from Building Department usage.)

- ◊ Asbestos containing material (ACM): any material or product that contains more than 1 percent asbestos.
- ◊ Asbestos renovation: the removal of more than 160 square feet, 260 linear feet or 35 cubic feet, if square feet or lineal feet could not be determined, of ACM.
- ◊ Category I non-friable ACM: asbestos-containing packings, gaskets, resilient floor covering, and asphalt roofing products. (typically pliable materials, including sealants and mastics)
- ◊ Category II non-friable ACM: any other ACM, excluding Cat. I non-friable ACM, that when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure. (typically non-pliable/cementitious materials)
- ◊ Demolition: the wrecking or taking out of any load-supporting structural member (i.e. - load bearing wall) of a facility together with any related handling operations or intentional burning of any facility. *Note: this definition may differ from Building Department usage.
- ◊ Friable ACM: any ACM that when dry, can be crumbled, pulverized, or reduced to powder by normal hand pressure
- ◊ Non-friable ACM: any ACM that when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.
- ◊ Regulated Asbestos Containing Material (RACM): any friable ACM; Category I nonfriable ACM that has become friable; Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading; Category II non-friable ACM that has a high probability of becoming or has become crumbled, pulverized or reduced to powder by the forces expected to act on the material in the course of demolition or renovation.
- ◊ Renovation: altering a facility or one or more facility components in any way, including the

DEMOLITION OR RENOVATION ASBESTOS REQUIREMENTS
FACT SHEET

stripping or removal of RACM from a facility component. Renovations include all activities in which asbestos could be disturbed at a regulated facility, including the clean-up and removal of debris from buildings which have burned. Operations in which load-supporting structural members are wrecked or taken out are demolitions.

- ♦ **Regulated Facility:** any institutional, commercial, public, industrial, or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential buildings having four or fewer dwelling units). Any facility that was previously subject to this regulation is not excluded, regardless of its current use or function.

Asbestos NESHAPS Declaration of Notification Compliance

The purpose of this form is to determine Exemption from the requirements of the Asbestos National Emission Standards for Hazardous Air Pollutants (Asbestos NESHAP), or provide evidence that required asbestos Notification pursuant to 40 CFR Part 61, Subpart M, Section 61.145, Standard for Demolition and Renovation, has been made by attaching a copy of the notice. Part A is for a Residential Building Exemption. Part B is for a General Exemption.

Residential Building Exemption		
PART A: If your project involves renovation/demolition of a residential building only (includes a mobile home), please answer the following questions to determine exemption:		
Does this renovation/demolition project involve more than <u>ONE</u> residential building at the same site with the same owner/operator?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Is this building currently being used, or has it EVER been used, as a commercial, government, daycare, office, church, charitable or other non-profit place of business?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Has this <u>ONE</u> residential building been divided into five or more dwelling units or leased/rental units?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Is this building to be demolished as part of a highway or road-widening project?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Is this building part of a building cooperative, apartment or condo building?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Is this building used for military housing?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Have other residences or non-residential buildings at this site been scheduled to be demolished now, or in the future, as part of a larger project (e.g. the structure is to be demolished as part of an urban renewal project, a highway construction project, or a project to develop a shopping mall, industrial facility, or other private development)?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Is more than <u>ONE</u> residential building to be lifted from its foundation and relocated?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Will this residential building be intentionally burned for the purpose of demolition or fire department training?	Y <input type="checkbox"/>	N <input type="checkbox"/>

General Exemptions		
PART B: If your project involves RENOVATION, DEMOLITION, or REMODELING of a facility that is not a residential building consisting of four or fewer dwelling units, answer the following questions to determine exemption from the NESHAP notification requirement.		
Does the affected area to be renovated involve disturbance or removal of existing facility components?	Y <input type="checkbox"/>	N <input type="checkbox"/>
Does the project include the removal of load supporting structural members?	Y <input type="checkbox"/>	N <input type="checkbox"/>

If ALL answers to the above questions are "N" for "No" in Part A and Part B above, the project is exempt from Asbestos NESHAP Notification requirements. Attach a copy of this form to the Demolition/Renovation Permit Application.

Any "Y" or "Yes" answers to the above questions in Part A or Part B above will require:

- o A thorough asbestos inspection must be conducted by a California Division of Occupational Safety and Health (DOSH) Certified Asbestos Consultant (CAC) prior to renovation/demolition.
- o Demolition projects require a NESHAP Notification, regardless of whether asbestos is identified as present or not.
- o Renovation projects require NESHAP Notification if they involve the disturbance of friable or Regulated Asbestos Containing Material (RACM) meeting or exceeding the minimum of:
 - o 260 linear feet on pipes, or
 - o 160 square feet on other facility components, and
 - o 35 cubic feet, if square feet or linear feet could not be determined
- o The Notifications are to be submitted 10 working days in advance of any work. The original notification form should be sent to: U.S. EPA, Region IX, Enforcement Division (2-1), Attn: Asbestos NESHAP Program, 75 Hawthorne Street, San Francisco, CA 94105. For Placer County demolitions and/or renovations, a copy of the notification must be sent to: California Air Resources Board, Attn: Enforcement Division, Asbestos NESHAP Program, P.O. Box 2815, Sacramento, CA 95812; or faxed to (916) 229-0645.
- o Attach a copy of the completed notification form(s) that was sent to U.S. EPA and CARB to the Demolition/Renovation Permit Application.

APPLICANT SIGNATURE

I declare under penalty of perjury, to the best of my knowledge and beliefs, the responses made herein are true and correct, and that either I have provided required notification as set forth by 40 CFR Part 61, Subpart M, Section 61.145, Standard for Demolition and Renovation, or declare that notification is not applicable to the demolition or renovation project.
