

URBAN RUNOFF INFORMATION

City of Calexico Water
Utilities Department

The City of Calexico is required under State laws and regulations to identify the potential effect that each business may have on water quality. All businesses are also required to comply with the City of Calexico Urban Runoff Management and Discharge Control Regulations (City Code Chapter 40), which prohibit the discharge of pollutants and non-storm water to City streets and storm drains. Water that flows on streets and into storm drains is discharged to the nearest water body, without treatment. Typical urban runoff pollutants include oils, chemicals, building materials, dirt, vegetative waste, and trash. All businesses must complete and submit this form with their business license application, as well as implement the appropriate Best Management Practices to prevent such discharges. This form must be completed to receive your business license. Contact the Water Utilities Department at 760-768-2120 or log on to our website at www.CalexicoCleanWaterProgram.org for further information.

Reason for Submittal

New Business Business License Renewal Change of Information

Site and General Information

Date: _____ Standard Industrial Classification (SIC) Code: _____
